

## **Paco Versailles**

Paco Versailles is a collaboration between guitarist/composer Vahagni and songwriter/producer Ryan Merchant (of Capital Cities). Their sound is a mix of flamenco guitar rhythms with disco-leaning electronic production and captivating vocals, a new genre they call Dancemenco. The name Paco Versailles was conceived while imagining a collaboration between their biggest influences, the legendary Spanish guitarist Paco De Lucia and French electronic artists Daft Punk and Air, both products of the Parisian suburb of Versailles.
