Shooter Shannon Fagan was one of the first contributors here at [Blend](#) (<http://www.blendimages.com>) and he has made some truly remarkable imagery over the years. In 2010, Fagan moved his business to China. The concept of stock photography isn't as well known in China as it is in the States so Shannon has really put forth some effort into explaining the ideas behind this business model. In this video for [China Daily](#) (<http://www.chinadaily.com.cn/video/>), Fagan talks about the attitudes, activity and atmosphere of working in China, but really goes beyond the cultural address and gives a rare window into the world of stock photography in general. You can find out more about Shannon Fagan on his [website](#) (<http://www.shannonfagan.com>), or see some of his work [here on blendimages.com](#) (<http://www.blendimages.com/SwishSearch?nosolo=1&Keywords=Blendimagesv2&photoginclud=photographerSF>).
