

HAIR + MAKEUP PROTOCOLS

- 1. Take temperature at home before leaving for the set. If temperature is not normal client will be contacted immediately.**
- 2. Wear mask and protective eyewear while working with models.**
- 3. Wash hands and sanitize throughout the day.**
- 4. Keep hair and makeup stations separated, at a minimum of 6ft apart.**
- 5. Disinfect work area upon arrival and continue to disinfect station and tools throughout the day.**
- 6. Prohibit other crew members from placing drinks, phones and personal items on hair and makeup stations.**
- 7. Use disposable applicators for eyes and lips.**
- 8. Use disposable palettes or palettes that can be disinfected for each model's makeup application.**
- 9. Isolate all hair and makeup brushes and tools that have been used on a model and place in container specific to that model. Sanitize after use.**
- 10. Aside from working with models maintain the 6ft recommended distance from crew-members.**
- 11. Limit conversation and ask that talent refrain from cell phone use while artist is working.**
- 12. All IA Artists have Barbicide Covid-19 Certification.**

HAIR + MAKEUP PROTOCOLS
