MAINELY PORTRAITS

be yourself and let's create
original art of your family

intimate moments, authentic connections, creating a legacy for you and your family

telling your story

In still photographs there is a decisive moment when the subtleties of ones face, and in the body language, all convey a feeling and a narrative.

Being with loved ones in the place (or places) you love helps further that narrative.

Remember this specific time and place by doing something you love to do. Wear the clothes you love to wear and hang out in a place that makes you happy!

Let's do all things that allow you to feel wonderful and create lasting memories through photographs.

during our time together

My number one priority is to make people feel comfortable and open in front of the camera.

By planning out our time together we create an atmosphere where I capture your individuality.

Each person photographed feels the warmth and respect I have for him or her.

When the subject feels known, the photographs radiate with authenticity and a visual story unfolds.
