be yourself and let's create

original fine art of your family

intimate moments, authentic connections, creating a legacy for you and your family

telling your story

In still photographs, there is a decisive moment when the subtleties of one's face and body language convey a feeling and a narrative.

Being with loved ones in a place (or places) you love helps further that narrative.

Remember this specific time and place by doing something you love to do. Wear the clothes you love to wear and hang out somewhere that makes you happy!

Let's do all things that allow you to feel wonderful and create lasting memories through photographs.

during our time together

My number one priority is to make people feel comfortable and open in front of the camera.

The price is \$250 per hour of photography and includes 5 high quality digital files per hour of photography, a pre-planning session and an online gallery for you to view the images of your family.

Planning out our time together allows us to create a great atmosphere where I can capture your individuality.

Each person photographed feels the warmth and respect I have for him or her.

When the subject feels known, the photographs radiate with authenticity and a visual story unfolds.
