MAINELY PORTRAITS

be yourself

Event Photography

intimate moments, authentic connections, creating a legacy for you and your family

during our time together

My number one priority is to make people feel comfortable and open in front of the camera.

By planning out our time together we create an atmosphere where I capture your individuality and tell the story of your special event.

Each person photographed feels the warmth and respect I have for him or her.

When the subjects feel known, the photographs radiate with authenticity and a visual story unfolds.

telling your story

It's your special day and your event. Capturing the love and friendship among everyone there is just as important as capturing who was there and what they wore. That is what makes your event unique.

A combination of formal portraits and candid photographs will help tell the story of your special day.

This will be a day to feel wonderful. Let's create lasting memories through photographs that are not only beautiful but also will take you back to that special time and place each time you view them.
