

## MY PHOTOGRAPHY IS CONSTANTLY EVOLVING

Embracing advancing technology allows me to bring new techniques and perspectives to every shoot. I deliver a wide range of high-impact images, defined by extreme angles, unique perspectives, intense color, and motion. With over twenty years of experience shooting across the United States, I have the skills to get the shot in any situation. I've created work for national and international campaigns for clients including Honda, Mercury, Skeeter, Ranger, Yamaha, Arctic Cat, Lowe's, Exxon, and Anheuser-Busch.

I also offer full production capabilities that scale to the needs of each project. I can quickly assemble an experienced and specialized crew including a producer, director, art director, photo boats, helicopter support, talent, videography, locations and post-production to ensure a seamless workflow and powerful final results.
