

ALTERED BOOKS

This class is about discovering your own vision. It's about letting the heart speak. We will remake old books letting the heart act as our guide. **YOU WILL BE STUNNED WITH WHAT IT HAS TO STAY**

Many people exist under the mistaken impression that to do "art," to create powerful images, you have to be good at it. **THIS IS NOT TRUE**

Powerful art comes from speaking and creating with the heart's voice. Your voice. Everyone has a story of heartbreak, joy, loneliness, enlightenment. The true energy, the strength of art lies within these stories. This class will be a safe place to rediscover these stories and in the process, to rediscover these stories and in the process, to rediscover yourself. We will experiment with photography, textm drawing, collage, and painting, using elements of design, texture and depth.

CREATIVE PHOTOGRAPHY

Go into yourself. How deep is the place from which your life flows? At its source you will find a world of limitless creation, a space so inspiring that no words could enter, just vision.

This class is an integration of technique, intuition and creativity. Experiment with abstract, portrait, figurative and location shooting. Walk through photographers studios, have discussions and open classes critiques. Connect with other creative women in a playful safe environment of freedom, personal style and expression.
