

## **JUST ONE MORE**

I want Just one more kiss before you go  
(and another one)  
And Just more look at the full moon on a clear night  
When it shines off your face,  
And Just more hike thru green greens and jagged rocks  
And Just more day to sit and enjoy  
And Just one more chance to sing out  
All the good things in life.  
And then I Just want one more of everything...
