

raindrop

bus panamá →
San José
3-VI-78

a rain drop begins -

a small idea -
vapor in a cloud -
growing ~~fatter~~ fuller,
heavier,
stronger

til he bursts thru the cloud-womb

a raindrop begins -

he flees the womb,
reams the wild blue yonder,
in a quick jet earth-bound,
seeking new adventures
"something different,"

his life-long journey
earth-bound
10 minutes

then SPLAT,
smashed on a pavement

mutilated by a wiper blade,
or ~~engul~~ engulfed by
rushing, dirty swells,
the individual,
the new, fresh raindrop
absorbed,
→ destroyed by the great masses, ...
forever.

much optimism for a
10 minute life span...
